

EMISSIONS REDUCTION CONFERENCE & AWARDS CEREMONY

An invitation to attend an emissions reduction awards ceremony.

**Tuesday, December 1st, 2009
Retama Park, San Antonio, Texas
9:00 A.M. till 2:00 P.M. - Lunch Provided**

**Please RSVP by November 20th 2009
ecotaz7@yahoo.com or call (210) 842-0703**

Topics

- **How ECO Systems Fuel Enhancers reduce harmful emissions and save fuel.**
- **How Pure Power!® Lifetime Oil Filters reduce landfill waste and reduce costs.**
- **Awards presented by the Office of Congressional Officials to organizations who are making a difference in our air quality and the environment.**

Proven Technologies – Cleaner Air – Cleaner Engine

ECO Systems Fuel Enhancer Highlights: 10% on average fuel savings, with ranges from 4% to 30% for liquid fuel. 2% proven on natural gas. Used by 125+ School Districts with 8000+ buses for over 8 years. Over 80,000 units sold, and hundreds of emissions tests.

Lifetime Oil Filter Highlights: Stainless steel mesh filtration. Better filtration. Easy to clean. Direct replacement. Lifetime use. No more storage of new filters, draining and crushing, storing, and hauling off old ones. Approved for piston aircraft. Used by race cars.

Speakers

Guest Speaker Richard Carlson will explain how the ECO Systems Fuel Enhancer raises the vapor pressure of fuel, and causes a cleaner burn with fewer emissions. Mr. Carlson is an emissions and fuel expert.

Guest Speaker Kelly Tidwell is VP and CoFounder of Pure Power!, Inc. and is in charge of research & development and product testing. He is an engineer in the lubrication industry, and is a former world champion drag racer.
